OUR HISTORY

Since 1986, Integrated Benefits, Inc., has skillfully represented disabled individuals before the Social Security Administration. We compassionately shepherd our clients through a difficult and confusing process, relying on our experience and relationships to simplify and expedite the integration of their public and private disability benefits.

SERVICE THAT SAVES YOU HEADACHES

Founded to serve the disabled, IBI extends that dedication to service through our whole business. We not only serve our claimants by winning their benefits, but we also serve them by guiding them through the integration of their multiple benefits. We serve our insurance carriers by providing industry leading results while improving the experience for the claimants and their case managers.

CUSTOMIZATION

We work with our insurance carriers to seamlessly integrate our process with theirs. We can place team members on site or work through secure web sites. We customize reporting to meet your needs. Any way you want to set it up, we will deliver results.

EXPERTISE

Our own attorneys represent all our claimants. Do you really want to send your claimants in front of a judge without an attorney? Or with a contract attorney who is disconnected from the case?

SATISFACTION

Let us benefit you! You'll love knowing you don't have to worry about your SSA results. You'll love the relationship and our reliability. You can focus on other issues, because IBI is your Social Security solution.
